TOOLS FOR ELECTRONICS

QUALITY FROM EXPERIENCE

BERNSTEIN has specialised in the manufacture of ESD and precision tools since 1953. The BERNSTEIN company name first officially appeared in 1953 at the German exposition for radio and television in Düsseldorf. At that time, BERNSTEIN was the technology department of the company **BER**nhard **STEIN**rücke, an Ironware wholesaler in Lennep.

It wasn't until three years later that BERNSTEIN developed into an independent tool factory. During this periods, Bernstein manufactured a range of highly specialised hand tools for the

production, maintenance and repair of radios, television sets and other Hi-Fi equipment. The radio and television industry experienced a boom in the following years. BERNSTEIN products were represented and known in almost all the European fairs up until 1970.

Today, BERNSTEIN is still one of the well-known manufacturers of hand tools for electronics and precision mechanics handtools, together with its partners, supplies industry in Germany, Europe and the world.

BERNSTEIN draws on knowledge gained over many years to process Bernstein raw materials into high-quality tools with the highest standards in terms of quality and origin. Our product portfolio ranges from tweezers, pliers and screw drivers to custom, specialised tools, ball-joint vices and ball-joint-holders.

CUSTOMER

OUR CUSTOMERS ARE AS VERSATILE AS OUR PRODUCTS

We reach customers in Germany, Europe and across the world via our partners. We don't just supply the electronics industry. Our tools also find use in laboratories, test facilities, model making, the optical industry and dental sector.

2012

The company takeover in 2012 meant that it was time for a complete redesign of the corporate image. Since then, the orange diamond has stood for high quality.

2014

Our products have also been continuously adapted to the new course. In 2015, we created the BERNSTEIN case PROTECTION in an unmistakable design.
